Rear parking assistant with stop  
Parkview reverse parking camera  
Keyless go

LPG SYSTEM

All Dodge models are available with an LPG autogas system. This conversion enables a reduction in fuel costs of up to 50%, whilst helping to protect the environment, because gas emits 15% less CO2 and 50% fewer pollutants than NOx, for example. And this is without losing a single bit of the performance of the HEMI V8! The systems used adhere to the strictest European safety standards, and this, of course, also applies to the refuelling system. And if there is no petrol station with LPG nearby, then the vehicle can run on petrol.

MEET THE FASTEST 3-ROW SUV

# DURANGO UNCHAINED

## DODGE DURANGO 2019

The Durango proves that having space for seven people doesn't mean sacrificing storage space or comfort. The comfortable leather seats ensure a relaxing ride, even at full speed! A constantly comfortable temperature is guaranteed thanks to the three-zone automatic climate control and heated seats in the first two rows. Up to 19 speakers provide a remarkable sound experience, which is controlled via the Uconnect multimedia system with 8.4 inch touchscreen and navigation system.

Whether you choose the R/T with a 5.7 litre engine and 365 HP or the SRT with 6.4 litres and an incredible 492 HP, the Durango relies on V8 power for performance that makes it the only muscle car in the SUV category. This performance comes from a sport chassis on the street that allows a towing capacity of up to 3.5 tonnes. The elegant, sporty design with 20 inch wheels, a performance bonnet and the LED racetrack tail lights will attract envious looks, whilst the active safety features like adaptive cruise control and a blind spot assistant guarantee a relaxed drive.

## ABOUT AGT EUROPE

AGT Europe Automotive Import SA, with its headquarters in Switzerland, is the leading official importer of Dodge & RAM trucks. Since 2008, the business has become THE expert in the distribution of American pickups and muscle cars in Europe.
